DETAILED ACTION

Response to Amendments

1. Amendments to claim 1, 18, 19, and 22 have been entered in the above-identified application. Claims 2, 20, 11, 16, and 17 are cancelled. **Claims 1, 3-9, 12-15, and 18-23 are now pending.**

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3-9, 12-15, and 18-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 18, 19, and 22 have been amended to recite that the non-surface layer comprises at least one propylene polymer comprising at least 50% by weight of units derived from propylene. However, there is no support for such a limitation in the original disclosure, i.e., the Specification or the original claims. Applicants have directed the Examiner's attention to Page 6, lines 21-23 or the Specification however a careful review of that portion of the Specification shows that that particular paragraph is a discussion of the outer layer and not a non-surface layer.

Applicants are required to cancel any new matter in response to this Office Action and are reminded that any prior art rejections of record may be reinstated upon the cancellation of the new matter.

Response to Arguments

3. The prior art rejections in the previous Office Action have been withdrawn in view of Applicant's amendments. However, the Examiner's withdrawal of these rejections does NOT constitute a concession as to the applicability or non-applicability of the previously cited prior art to the previously presented claims or to the claims as presently amended. Upon cancellation of any new matter, the rejections may be reinstated. Applicant's arguments filed on June 18, 2009 have been considered but are moot in view of the new ground(s) of rejection based on the presence of new matter. The Examiner reserves any discussion as the merits of the previously cited prior art references until the issue of new matter has been resolved.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
